

Product Specification	
Product Name	Solar Panel Charger
Model	CSP-1
SKU	7794
Specification	
Maximum solar charging power	1.5W
Maximum solar charging current	300mA
Built-in li-ion battery current capacity	1700mAh
External charging input	DC5V/500mA
Maximum output	DC6V/1500mA
Battery duration	fully charged in one day under daylight. shooting 9418 pcs in day or 3741 at night. filming 2716 clips in day or 458 at night, (sample model defaulted 5sec/clip)
Physical	
Operating temperature	-10°C to +40°C
Storage temperature	-20°C to +60°C
Service life	3 to 5 years
Dimensions (MM)	approx. 158*102*14mm
Weight (G)	approx. 188g

- Maximum solar charging power 1.5W
- Built-in li-ion battery 1700mAh
- Maximum output DC6.0V/1500mA
- Charged by solar power or external adapter
- Spray-water protected(IP protection class56)
