1. Product overview

Hydration backpacks are lightweight packs with an integrated water bladder and drinking tube, designed for hands-free hydration during tactical tasks, hiking, outdoor training and sports.

This manual applies to all hydration backpack models, capacities and colours. The capacity, dimensions, weight and material of your model are given on the product label and in the product datasheet. Some features described below may not be available on every model.

Features

- **Integrated bladder:** Holds water and supplies it through a drinking tube for hands-free hydration.
- **Leak-proof cap:** Prevents water loss during movement.
- **Durable fabric:** Protects the bladder from wear, moisture and tearing.
- **Versatile carrying:** Can be worn on the back or chest, or carried by hand.
- **Adjustable straps:** Provide a comfortable and stable fit during movement.

2. Usage, maintenance and care

Usage

- **Before first use:** Rinse the bladder and tube; check the cap and tube for leaks.
- **Filling:** Open the cap, fill the bladder with water and close the cap tightly. Do not overfill.
- **Fitting:** Adjust the shoulder straps so the pack sits close to your body.
- **Drinking:** Drink through the tube mouthpiece. Route the tube so that it does not kink.
- **Precautions:** Keep sharp objects away from the bladder. Do not fill it with hot liquids or leave it filled below 0 °C.

Operating and storage conditions

Parameter	Value
Operating temperature	0 to +50 °C
Storage temperature	-30 to +60 °C
Storage conditions	Store dry, with the bladder empty and open
Sunlight	Avoid prolonged exposure to direct sunlight
Heat sources	Keep away from open flame and heat sources

Care instructions

Care step	Instruction
Rinsing	Rinse with clean water after each use
Bladder washing	Lukewarm water, mild detergent; no boiling water
Cover washing	Hand wash only, max 30 °C
Bleaching	Do not bleach
Drying	Air dry the bladder open; do not tumble dry
Other drinks	Rinse the bladder immediately after use

- **Storage:** Empty the bladder and store it with the cap open so it dries completely. Never store it wet, as this can cause odour and mould.
- **Inspection:** Check the bladder, tube, cap and seams regularly for leaks and wear. Do not use near open flame: synthetic fabric can melt.
